

KITCHEN RANGE
TRANSFORM YOUR SPACE

BOX 15

TRANSFORM YOUR SPACE

Our transformable range has been designed specifically to help make the most out of any space. We have a collection of pull-out, fold-down and sliding frames which will allow you to create tables and extra worktops that can be folded away and hidden from sight when not in use. Patented designs integrate all parts (mechanism and tops) within the surrounding unit, maintaining a clean, tidy look.

- All available as standalone frames as standard allowing use of own tops. Full specifications for tops are supplied online / in the box. A selection of frames are available with a pre-mounted top.
- All the frames are load rated, between 20kg and 100kg (evenly distributed), depending on the frame.
- Wide choice of sizes available to suit a number of standard drawer widths and table depths.

TRADE DISCOUNTS | NEXT DAY DELIVERY | OXFORDSHIRE SHOWROOM
