Description	Our most economical unit, the Cube features a unique square profile top and fits into a standard 80mm hole, the size many desktop cable grommets are already.	Our mid-range unit is the only one that remains functional even when stowed away. Also the Pod range offers 5 different finishes and the option to have USB or Data sockets as standard	Our Premium range, the Milan features a stylish design and is the only socket we offer that can be fitted flush into a worktop. In addition the Milan range offers the option to have an LED light, a USB socket and/or Data sockets
